

What are your reasons for participating in the program?

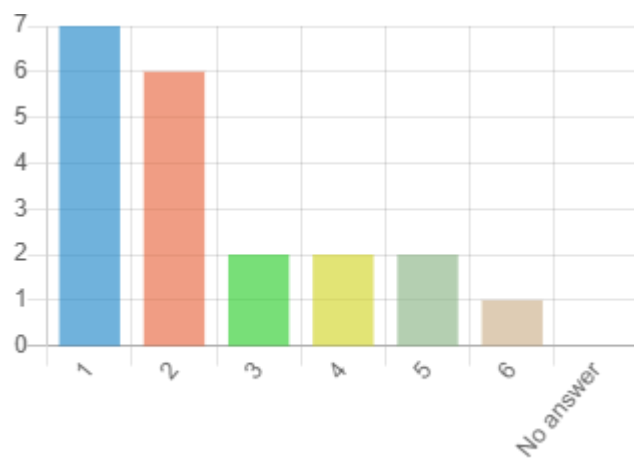

Describe your experience of the application process within a scale from 1 (criterion fully met) to 6 (criterion not met).

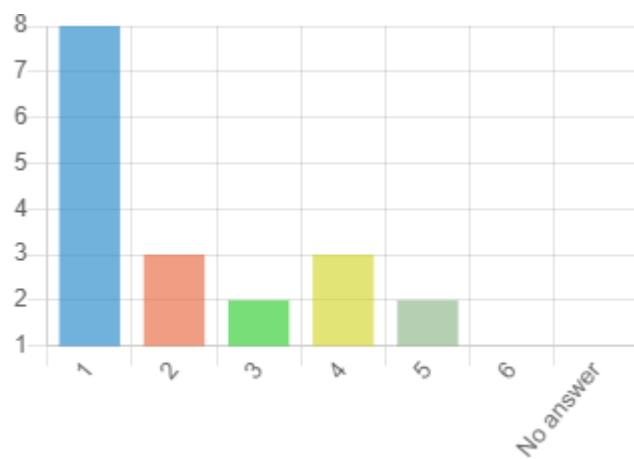

I received all relevant information before my application

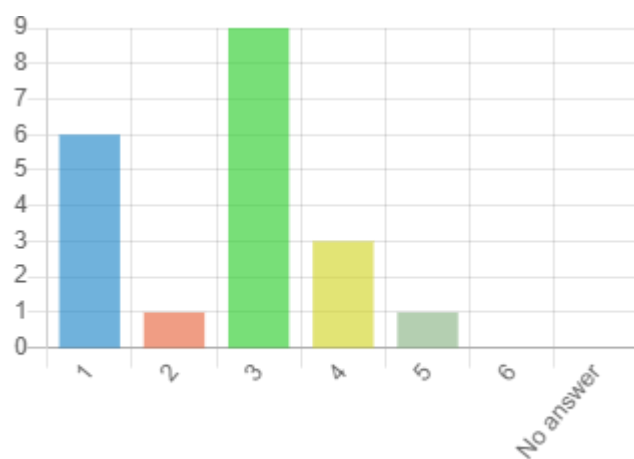

I knew about the criteria in the selection process

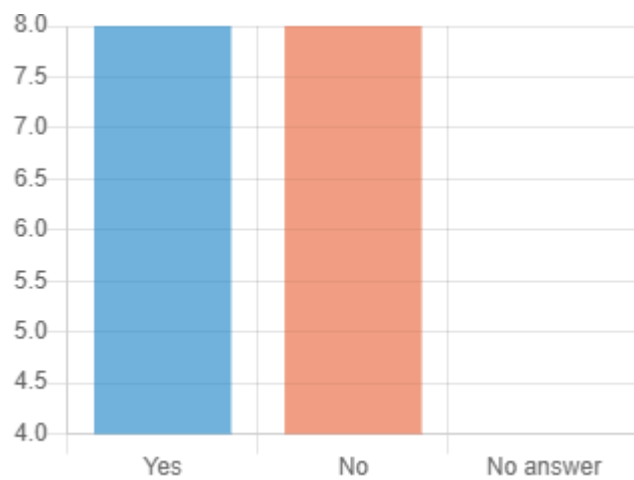

The selection process was fair and transparent

I felt well prepared

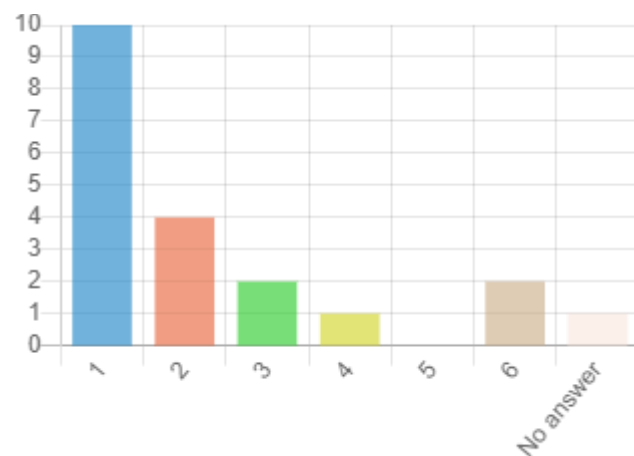

I would have preferred to have more information beforehand

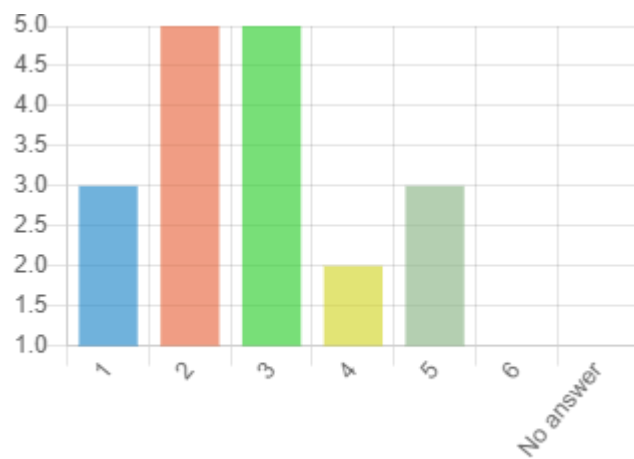

The kick-off meeting helped me to achieve the following goals. Rate your opinion about the single points within a scale from 1 (criterion fully met) to 6 (criterion not met).

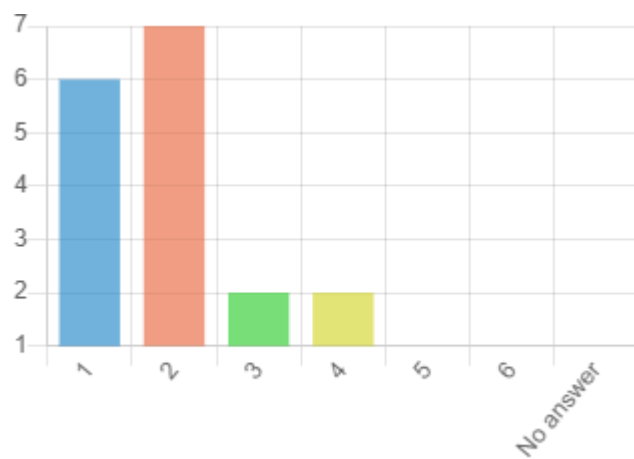

To gain insight into the project itself

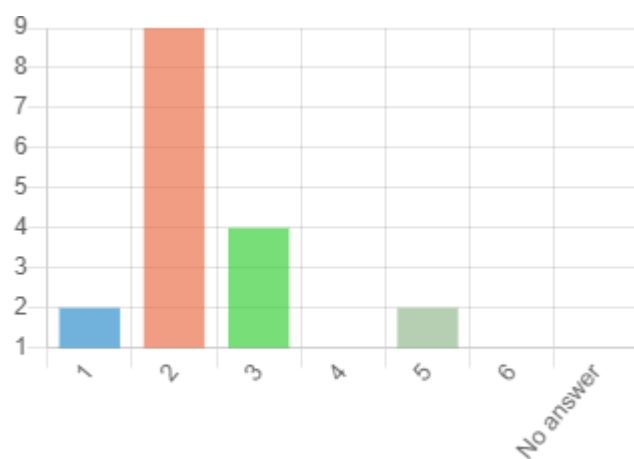

To connect me to my fellow participants from the other universities

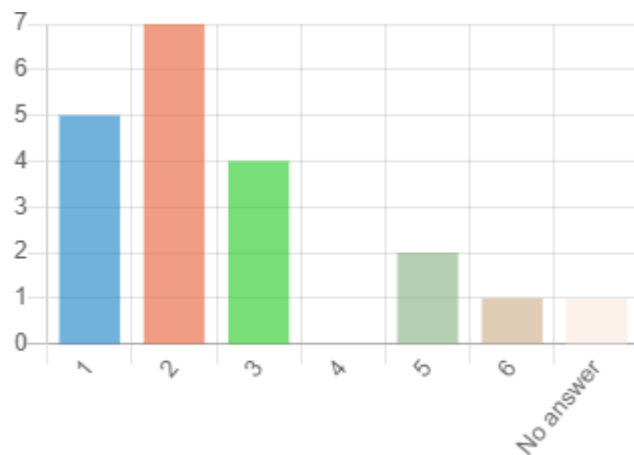

To give me an impression about how I will communicate with others

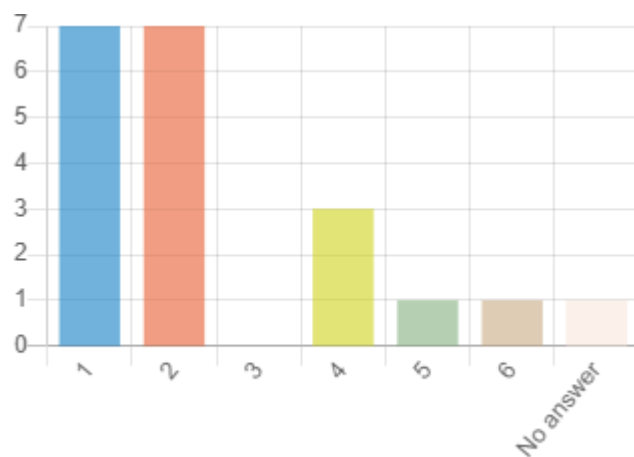

To give me an impression about my work in the project

To give me a more concrete idea about the participation in the project

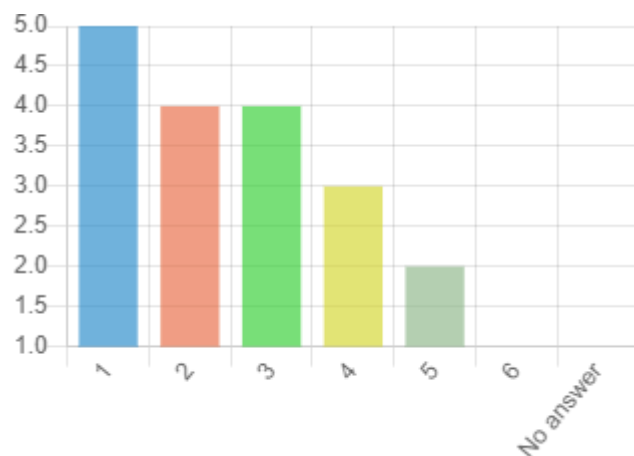

To give me an idea about the intercultural aspects of the project

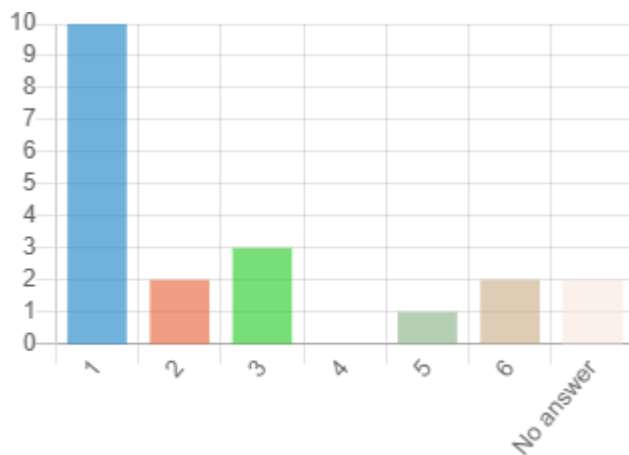

Describe your feelings after the Kick Off within a scale from 1 (criterion fully met) to 6 (criterion not met).

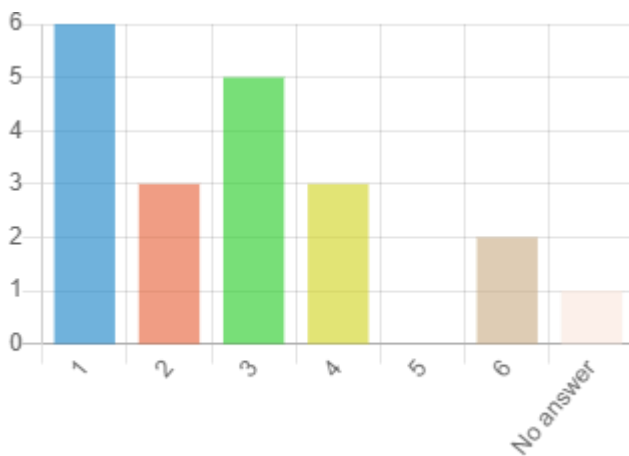

I know what is expected of me during the project

I have understood the obligations that come with the scholarship

I had the chance to address all relevant questions I had before, during and after the kick-off meeting

I was satisfied with the technical environment
